PERTEMUAN 6

Nama : Fajar Satriadi

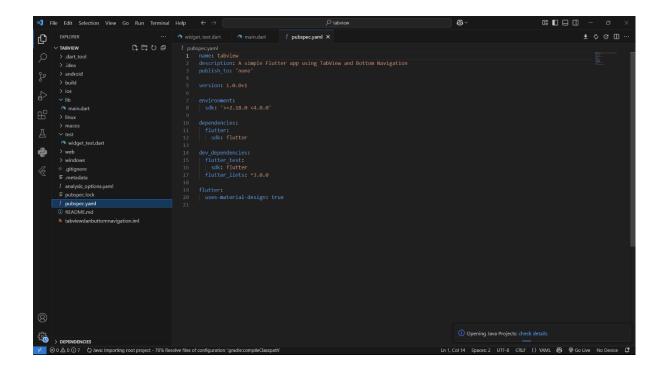

Nim : 221011401917

Kelas : 06TPLP030

Mata Kuliah : Mobile Programing

Codingan

```
rs MyApp extends StatelessWidget {
werride
dget build(muildcontext context) {
return NaterialApp(
title: 'TabView & BottomNavigation',
theme: ThemeData {
primarySwatch: ■Colors.blue,
}, // ThemeData
home.
                                                                                                                                                                                                                                                                                                                                 0% ■ 🗆 🗆
ច្គេប្គ
                                                           Run|Debug
testWidgets('Tab and BottomNavigation interaction test', (WidgetTester tester) async {
   await tester.pumpWidget(MyApp());
                                                              // Tap on Artikel tab using BottomNav
await tester.tap(find.byIcon(Icons.article));
await tester.pumpAndSettle();
                                                               // Tap on Profil tab using TabBar
await tester.tap(find.text('Profil'));
await tester.pumpAndSettle();
```

Hasil Setelah di Run
